

Prodapt Acquires Innovative Logic, will Expand to Silicon Valley, and Serve Global Digital Platform Companies

Aug 19, 2021 (New York): Prodapt, the leading consulting, technology & managed services provider to the Connectedness vertical, announced that it has acquired Innovative Logic, a Silicon Valley-based hi-tech services company building next-generation solutions for global digital platform players. Innovative Logic works with leading operators of the connected economy – including several FAANG, and leading global digital platform companies.

With the burgeoning demand for hi-tech services arising due to the explosive growth of 5G, IoT, AR/VR, the acquisition will enable Prodapt to play a vital role in the early stages of the innovation cycle, acquire new capabilities, and deepen relationships with digital platform companies in the connectedness industry.

"Innovative Logic has built an impressive business with a marquee customer base and we're excited to welcome them to the Prodapt family," said Vedant Jhaver, Chairman and CEO, Prodapt. *"Our combined expertise in the hi-tech services will help to strengthen our capability and relationships with some of the leading creators of the hyper-connected world,"* he added.

Innovative logic's systems design capabilities in silicon (SoC, ASIC, FPGA) & software (Embedded, Firmware, IoT) complements Prodapt's vision of Connectedness to play an end-to-end role that enables communications, collaboration, and entertainment. The expanded capability will help Prodapt provide services right from the device to the edge and the cloud.

"Joining Prodapt is a great cultural fit for the Innovative Logic team, given our shared belief to enable, integrate and build solutions using next-gen technologies," said Dinesh Tyagi, President & CEO, Innovative Logic. "We can now scale and deliver a more powerful proposition to customers spanning across consulting, embedded systems design to operations and digital business outcome-driven solutions."
